PVC软管 分等级优缺点以及应用

PVC Hose Product Advantages and Disadvantages

编号	等级	图片	原料	优点	缺点	用途
NO.	GRADE	Picture	Material	Advantages	Disadvantages	Use
1	最优		食品级/全新料/ 无邻苯塑化剂	食品级, 不含邻苯二甲酸二 (2-乙基己基) 酯, 对人体无害, 符合 FDA标准。全透明。	价格略高	食品机械, 食用原料输送, 婴幼儿玩具
1	Best		Food grade 100%Virgin material NON-DEHP	Food grade, NON-DEHP harmless to human body, and FDA-compliant. Fully transparent.	Expensive	Food machinery, food material transportation, baby toys
2	优		新料	全新料, 无任何辅助添加剂, 耐低温, 抗老化, 耐油, 耐腐蚀, 低密度, 伸缩性极强。全透明。	价格适中, 不能直接接触食品输送	高端制造业, 洗车, 灌溉。园林绿化。
2	Good		100% Virgin material	100% new material, without any auxiliary additives, low temperature resistance, anti-aging, oil resistance, corrosion resistance, low density, strong flexibility. Fully transparent.	Fair price, no direct contact with food delivery	High Level manufacturing, car washing, irrigation. Landscaping.

3	一般		50~80%新料加较多增塑剂	价格低廉,应用广泛。工作压力, 爆破压力, 可达基础要求。	不透明, 韧性适中。使用寿命一般。	制造业, 洗车, 灌溉。园林绿化。
3	General		50~80% new material with some plasticizer	Low price and wide application. Working pressure, burst pressure, up to the basic requirements.	No transparents moderate toughness. General shelf life.	manufacturing, car washing, irrigation. Landscaping.
4	最低		再生料+钙粉	价格低。	异味大, 密度高, 无韧性。脆断, 易老化。寿命短, 不耐压。不稳定, 析出油脂。	一次性, 无压力要求行业。
4	Lowest		Recycled material + calcium powder	Lower price	Big odor, high density, no toughness. Brittle and easy to age. shelf life short No pressure-resistant.	Disposable, no pressure required industry.
